What's New In?

Student Life Organizer is a neat software solution designed to help you organize your student life, view your time table, take notes, set homework reminders and alarm clocks. It sports a clean and compact graphical interface with some nice tools at hand. Simple and easy-to-use graphical interface The application takes almost no time to install and it doesn't come with a complicated setup that you would need to complete before you can actually use it. It sports a clean and easy-to-use graphical interface with some tools at hand. Organize your student life It comes with a separate section, called student information in which you should be able to view details like student name, social ID, school/university name, school ID. However, it doesn't seem to have the option to edit the information and actually type in your name. Still, you can browse your computer and add a picture, as long as the file is a small bmp image. You can also load a file with your time table but it doesn't come with the option of actually creating it inside the program. The note-taker that doesn't save notes The note taker section is a simple document writer but it doesn't have any text formatting tools and it can't actually help you organize all of your classes. It also doesn't save the notes that you've taken, which makes this section quite useless for students. Still, it comes with a home work reminder that prevents you from forgetting important projects that you would need to complete. Use the alarm clock It has an alarm clock, which could wake you up in case you've fallen asleep while finishing up that essay that's due in the morning. Review details User reviews Author's review Review by: Admin on Mon, 23 Jan 2011 13:37 The Internet is filled with all sort of applications and programs that you could use in order to organize your files.
