It is a flexible, cross-platform audio recording and editing application. It can record and edit audio, can import and export. I can say this program is very simple to use, intuitive. It is easy to use, but it has some limitations (does not support waveform display, only editing sounds in a table format) and the quality of the compressed file is not good. It is very easy, but not as intuitive as the video recorders. There are some recording, editing and voiceover tools, however, the audio editor is not the same as any standalone audio editor.
