CMS Xpandy: pAd technology is an agency. We as an agency, are looking to provide the most cost effective and reliable website creation service for our clients. we will not charge you a single penny for our service until you are 100% satisfied with our service. Website Developers India with CMS We also know that you could be skeptical at first that you will be able to pay a

---

site developer to create the perfect website for you. However, if you visit our website and the demo files that we provide, you will see that CMS Xpandy will be able to create a website that will be as professional as any other website. We are not the first website creators to take on the challenge of providing websites that use the CMS Xpandy technology. This is an advantage that you will have over our

---

competitors, because the demo files that we provide will give you an idea of how your website will look. Website Designer India If you have tried to find a website designer, and the websites that they provide do not look great or are poorly designed, we have a solution for you. With CMS Xpandy technology, you get the same high quality website that you have expected and which you have seen in the demo files.

---

Website Designer India Cost The cost for website designers and website developers is very high. Most website designers are provided by agencies. These agencies charge large sums of money for their services and they have a large workforce of website designers to take care of the work load. The result is that the cost of website design and development is high. Website Designing Companies in India Website design companies in

---

India can charge anywhere between Rs 500 and Rs 2500 for each page of your website. However, what is not clear is what the cost is for the website developers. Most website developers in India do not charge their clients until they are finished and they have provided all the content to the client. What you need to understand is that your website will take between 3 to 6 months to develop and so you need to be prepared to pay

---

for the service. Website Designers in India You can also visit our website and download the demo files that we provide. These will give you an idea of what a good quality website will look like and so you can see what you will get from CMS Xpandy. Website designers in India can also make your website look good. But they do not have the CMS Xpandy technology and CMS Xpandy technology will make your website look great.

# Website Design

## What's New In CMS Xpandy?

Xpandy is the new generation marketing management platform which is actually developed by IntelliCAD. It is a new technology. It is very easy to customize it and easily deploy it to any niche. There is something for everyone in this CMS. It is a complete system which is completely independent of any

---

other CMS. Xpandy already comprises of various modules like a Content Management System, Social networking tool, Membership Site, Classified Site, Photo Gallery, Classified and Blogs etc. Advanced CMS Features: 1) Support for Ajax features, Xpandy has a lot of ajax features which will make you life easier. Like (CTA button, Slider, Calendar, comments, Polls etc) 2) Xpandy is more than just a CMS, it is a

---

website building tool. it has a web templates manager. with this you can create as many web templates as you like and with a single click of the mouse you can switch from one web template to another. You can also save your favorite web templates and use them later. 3) We know you want some more. We have given you the option to change everything from logo, navigation, to the overall look and feel. You can also add or remove pages and

---

modules in less than 2 clicks.

4) We know you want more. We have added a lot of modules. You can add anything you like to your site. We have a members area and various modules. With modules you can add Photo galleries, Classified sites, Community sites, Blogs, Ajax galleries, forum, classifieds etc. 5) At Xpandy we have added a lot of templates. For templates you can make things like a blog, gallery, forums,

---

news, calendar, pages, videos, contacts etc. You can add or delete any page at any time.

Xpandy Main Features: 1) There is a wide range of modules to meet all your requirements.

2) Xpandy is an Ajax enabled web application. It will run on any platform. There is no need to install any plugins. 3) Xpandy has a powerful admin section. You can add, delete or modify any page or module using it.

4) Xpandy is a modular content

---

management system. It is independent of any other content management systems. So you can keep adding new modules and use any one you want. 5) Xpandy is a full featured application. It has everything to keep your website alive. 6) Xpandy is a highly extensible content management system. You can use any module you like. 7) Xpandy is a highly extensible module manager. You can add, delete or modify any module at any time.

---

8) Xpandy is a totally customizable content management system. 9) Xpandy is very easy to use. You can do everything

---
