NoVirusThanks Drive Revealer Crack License Keygen Free

NoVirusThanks Drive Revealer is a utility dedicated to grabbing relevant information about the drives in your system, including the floppy, flash drives and CD/DVD ROMs. It can grab hardware device properties and has extensive support. The program comes with a minimalistic, yet clean and user-friendly interface that is designed as a table where you can read valuable information about the drive properties. Once launched, the app takes a few seconds to scan your system and detect the hardware installed. You will be happy to learn that the utility offers extensive support and, according to the manufacturer, it supports a wide array of HDD, SDD, CD-ROM, DVD-ROM, BLURAY drive, floppy and USB hardware. The program does not need admin privileges to function properly and can provide data such as logical drive letter, vendor ID, product label, serial number, file system type, volume name (if available), device path, vendor, so on and so forth. It is capable of decoding physical serial numbers. A noteworthy function of the application is that it is capable of decoding physical serial numbers that some vendors store on the hardware as encoded hex. Depending on your needs and preferences you can retrieve this information and convert it to a printable ASCII or save everything as an HTML report. At the same time, the program can identify if you have encrypted drives, provided that they have been encrypted using BitLocker. Then again, you should bear in mind that the tool only displays the information and, if you want to modify it, you need to employ other third-party dedicated apps. A handy tool that provides valuable information about your drives. In the eventuality that you need to learn more in-depth information about the DVD-ROM, flash drive or the SSD, data that you cannot retrieve via the Windows System Information, then perhaps you can consider giving NoVirusThanks Drive Revealer a try.

NoVirusThanks Drive Revealer Screenshot: NoVirusThanks Drive Unlocker
Description: NoVirusThanks Drive Unlocker is a utility which helps to recover locked files in your encrypted drives. It does this by giving you the unlock key for your drive in the form of hexadecimal code. NoVirusThanks Drive Unlocker works on all encrypted drives regardless of the type of encryption they use. It supports all the encryption modes like AES, RC2, Triple DES and others. It also allows you to crack the key if you do not have the necessary password to unlock.

NoVirusThanks Drive Revealer [Updated] 2022
