The following introductory article offers a helpful overview of the AutoCAD application, functionality, and terms, including comparisons to other CAD programs. AutoCAD Basics AutoCAD is a feature-rich, cross-platform CAD application designed to create technical drawings and draftsmanship for architects, engineers, and other professionals. The application can be used on desktop, laptop, and tablet computers. AutoCAD 2018 includes both AutoCAD software (Excel-based) and AutoCAD LT software (a Windows-based package). For maximum flexibility, and to meet users' varying needs, a license for either type of software is available. The AutoCAD 2018 software is more complex than the AutoCAD LT software and requires an AutoCAD specialist for installation and training. For specific licensing and AutoCAD LT requirements, consult your account manager. AutoCAD has a number of defining characteristics. AutoCAD cross-platform support: The program can be used on a wide variety of PC operating systems and computing platforms. Common platform: The program is installed and updated on desktop, laptop, and tablet computers. Extensible: The software offers a comprehensive set of specialized drawing tools and toolsets that may be individually installed and configured. Flexibility: AutoCAD can be installed on more than one computer and configured to use specific hardware and software components. The following sections provide an overview of the features that make up the AutoCAD 2018 suite. AutoCAD 2018 Pricing and Licensing AutoCAD 2018 software is available through a four-part software-and-service package. Individual licenses are available for both desktop and mobile versions of the software. A single-user license for the software (Excel-based) is $15,000 for a single user. Licenses include 1-year updates, training, on-site support, and online technical help. A single-user license for the mobile version of the software (AutoCAD LT) is $20,000, with similar features. Licensing for the mobile version includes the desktop version, including a new user interface. For specific pricing and licensing information, consult your account manager.
