Either it can be a smartphone or tablet to count the numbers of people who are following technology on a day-to-day basis.Q: Why is the home of Heroku, Heroku.com, not on the Super User website? I just noticed that the site for Heroku is not on the main Stack Exchange website. I understand that they operate as a separate entity from Stack Exchange, and that you can't just switch Stack Exchange servers around, but I'm wondering if there's a particular reason why the Heroku site is not on stackoverflow.com, nor is it listed as a Stack Exchange Site? A: Heroku was originally based on Stack Overflow. They've done their own thing since then, but there is still a bit of overlap between the two communities. List of people with spinocerebellar ataxia This is a list of people with spinocerebellar ataxia, a group of disorders that affects movement. When a person is afflicted with one of these diseases, they typically experience problems
