"The result of this technology is the industry's most realistic and addictive football," said producer David Rutter. "FIFA fans get to enjoy the most realistic and dynamic game engine we have ever shipped. That's why we took seven years to build this engine from scratch." FIFA Ultimate Team Mode FIFA Ultimate Team mode will continue to include "My Team" customisation, with more than 150 unique player items available. Players will also have the option to create clubs by customising players with standard items, and adding kits, training camps, contracts and auctions. Enhanced Skill Flow Skill Flow has been improved to be more intuitive, useful and realistic. Players can now boost their performance while sprinting by using their preferred passing direction, adjusting their approach angle, and executing advanced tricks while maintaining speed. This improves how players handle pressure, and they have greater control during fast-moving aerial and acrobatic duels. Refereeing Referees, as in FIFA 18, continue to be essential to the experience. They can now issue cards in two ways - through a new red card system, as well as by issuing a yellow card with a caution. Players will be automatically sent off for serious fouls, like head-butting, spitting and biting. New Controls Responding to fan feedback, FIFA controls will be more intuitive and responsive. Enhanced controls feature a right-hand trigger for pre-match, a new Alt-Right control to perform special player-specific actions, and an Arrow pad to support a

variety of gestures for ball control. Players may now also choose to use Xbox Wireless Controller, PlayStation Dual Shock 4, PC GamePad or Mouse and Keyboard. Precision Shots For expert players, every shot will be more realistic and fluid. When aiming for a goalkeeper, the impact of the ball on the back of the net can be realistically determined. Similarly, Goalkeepers will react realistically when reacting to shots, and defenders will more realistically move to block shots. Additional Features Exclusively on Xbox One X, FIFA Ultimate Team will offer richer content and deeper gameplay. Xbox One X players will now experience richer and more immersive visuals compared to last year's consoles, while Sony PS4 Pro players will also enjoy more authentic and lifelike visuals. Plus, fans can play the game and carry out in-game actions using the Xbox One X and PS4 Pro mobile

What's new:

- **The “Return of Pass”:** Players have improved the way they change direction and run to help manoeuvre the ball in off the dribble. In FIFA 22 Pass movement improves too. Players will now coordinate their passes by calling out to teammates, like sending a message to find an open man.
- **Revised AI:** FIFA 22 introduces a new AI model.
- **Dynamic Player Forms:** The new Attacking and Defensive formations now dynamically change depending on your skills to match. This will unlock more options in your next game!
- **Influence:** Influential player associations have now been added in Ultimate Team to help you boost the strength of individual players. Influenced players will now appear in your squad and help your team be dynamic.
- **Battlefields:** A new world and career mode exclusive to the Battlefield mode. Fight in a quickly changing Battlefield, and play to progress through the ranks as you gain rewards along the way and unlock new weapons. Battlefields battles last 20 minutes.
- **Increased unpredictability:** An improved “dribble” system makes players more unpredictable and naturally dominant, and now changes the game even without off-the-ball interaction.
- **New X-Factor rotations:** New and improved timing systems of X-Factor rotations allows for more precise touches of the ball, and more pressing and combo moves in single player.
- **New Gyro controls:** With improved precision in the new game, advanced options like the new Gyro option, Extra Sensitivity and so much more.
- **New touch controls:** Advanced touchscreen functionality has returned in the new game!
- **New shooting mechanics:** New shooting mechanics such as new shot types, more realistic trajectory, and additional shooting tutorials.
- **Revised player safety:** Improved collision detection, stronger player shapes, and more realistic teammates make players behave like they’re in real life.
- **New player action visuals:** New graphical features and a

polished look for tackling, dribbling and taking corners.

EA SPORTS FIFA is the world's best football game. Our team is dedicated to creating quality FIFA titles and one of the many things we focus on every year is evolving the game with new features and gameplay, so you can play more, win more, and enjoy football in new ways. Some of these features include more stories to follow in the FIFA Ultimate Team™ game mode, more ways to build and customize a team with the new Player Instincts, and deeper options for all modes through User Generated Content and the All-New Player Transfer Market. A new season of innovation - the biggest in the history of the franchise - has arrived. Featured in the FIFA franchise from the very beginning, the All-Star Team mode now expands as a mini-game, co-op and social experience in FIFA Ultimate Team™, making matches more competitive and teams more durable. FIFA Ultimate Team™, featuring the new Player Instincts, makes each player's strengths and weaknesses more noticeable, while the All-Star Transfer market is also innovated. Grow closer to the game - in Development Kit mode, players can create their own teams of players, create tactics, and then train them using the new Skill Matchmaker. Players can compare their tactics and performances against other players around the world and find guidance in-game so they can perfect their own play and game plans. Stay connected all year round - now you can play, communicate, and compete in a more connected FIFA, courtesy of the coming release of the FIFA Weekly Transfer Update. In the

franchise's first global live event, fans will have the chance to see and even compete with their favorite players. - The franchise's first global live event, fans will have the chance to see and even compete with their favorite players. Live Your Legacy - End-of-season moments are now brought to life with cinematics and a new, deeper celebration system - to reflect the way you played during the season. The latest installment of the popular franchise is FIFA 22, and with it comes the lowest energy cost of any FIFA game. Better tackling, player decision-making, speed and ball control have all been optimised to bring the game closer to the real thing, but with the improved ball physics, you'll be playing in a fun and reactive way from the very start. We wanted to deliver something fresh and innovative, and we are really proud with the results. We
