However, areas in the game are not connected by cities or towns, so that it becomes an open world where you can travel where and when you like. · In the new game, the concept of classifying the weapons according to their basic attributes has been changed. In the old one, each weapon had its own basic attribute, which could be changed by buying more attribute points or activating the weapons' effects. Now, weapons have "plus" and "minus" characteristics that can be combined together to create the new weapon. The "plus" gets added to the weapon, and the "minus" is subtracted from the weapon, which means that there will be fewer players using only swords or axes. · The combat system is based on that of the original Dx2, but it was changed to make it easier to practice with bff6bb2d33

Life: Continue into the Future. A recording of a certain Palli and a male monkey's conversation about the elder one's advice
Speaking from the male monkey, I would like to ask if you have any problems facing ourselves? Say, the university we visited together in the past was me thinking the same one at the present with a different Vigra. When I listened to the elder one's advice, one thing about a certain Palli became obvious to me. So I offer myself here and ask if there is any similar problem that came to your mind? When I asked about the elder one's advice, it seems that the elder one's advice cannot realize itself until we got together with seeing the Palli, myself. When we noticed the elder one's advice, I was given the opportunity to listen to it again. He explained that it was you, Palli, who told the elder one that the mind was your savior. Palli, you were the one who gave me the best advice ever. And now you have reached the future where other worlds are waiting for you. This is the elder's advice for the elder. Ok, let's continue just as before in the future, and I feel that I will be able to be able to share that happy optimism to Palli.
Life: Fail in the Future. The narrative about a certain Palli's advice. "Don't be surprised…"
Once again, Palli, I listened to your advice and I failed. After confirming that I understand it, I thought that I will not be able to bring together with you even for a moment. I made a big mistake and made the Palli, myself, fail. And this time
