Is a fantasy action role-playing game with turn-based battles. You play as a party of heroes from a variety of backgrounds and classes and roam through a vast world. As you explore, it's up to you to find solutions to your problems. 1. Classic Fights: • The battle system uses the standard system developed by LEVEL-5. You can freely customize your party formation. • You attack and counterattack by determining the timing of attacks. • You can either move your party member or switch between your party members and lead your party members to take their turn. • Your party members' status is assessed after you attack. Your party members may run out of health if the health bar gets too low. If your party members are out of health, you can switch party members and use your own HP to heal. • After switching party members, it's up to you to take your own turn. • Skills that can be used during battles include a variety of attacks, healing, buff, magic, and more. • You can even apply buffs, including status-changing buffs and debuffs, magic-based buffs, and more. 2. Your struggles and resolution will all be reflected in the world. • If your character dies during a battle, your character's data is preserved. You can automatically recruit a new character when you start a new game, or you can replay the battle from the save point. • If you want to get money as a reward, you can go into battle again and try to win. However, if you lose the battle, you will not get the money. 4.
